WORK EXPERIENCE

CyberSecurity Developer

Nov 2024 – Present

xIoTz Private Limited

Bengaluru (Hybrid)

- Designed and implemented custom **Wazuh** Active Response modules to **automate** threat mitigation, significantly improving real-time **incident handling** across monitored infrastructure
- Deployed and managed security tools on **AWS EC2** instances with basic **cloud infrastructure** configuration and **DevOps** practices
- Contributed to development of cyber assurance platform, integrating **Wazuh** and **automation pipelines** for enhanced **threat detection** and centralized security management
- Performed core **SOC operations** including **alert triaging**, **log analysis**, and **incident response** using **ELK Stack** for centralized logging
- Conducted basic **penetration testing** on internal systems to proactively discover **vulnerabilities** and support secure development practices

SDET and Operations Intern

Oct 2023 – Sep 2024

Frugal Testing

Hyderabad

- Developed and executed **automated test scripts** using **Selenium** and **TestNG** for web and **API testing** in Java, increasing test coverage by 40%
- Implemented **CI/CD pipelines** with **GitHub Actions**, reducing deployment time by 30% through **automation**
- Conducted **API automation testing** using **Postman** and **Rest Assured**, applying robust validation techniques, improving test reliability by 50%
- Identified and documented software defects using **JIRA** and **Trello**, leading to a 25% reduction in bug resolution time
- Integrated **Allure** for detailed test reporting and automated notifications on **Slack** using custom templates, enhancing reporting efficiency by 25%
- Containerized** testing environments using **Docker** and deployed on **Kubernetes** clusters for scalable test execution

Security Intern

Jun 2021 – Jul 2021

Gurugram Police

Gurugram

- Conducted **penetration testing** using **BurpSuite**, **Nmap**, and **Metasploit** to identify security **vulnerabilities**

PERSONAL PROJECTS

What's My Server Doing? | *Go, Tauri, Shadcn, Docker, Linux* | Real-time server performance and log monitoring tool with Go backend for tracking RAM, CPU usage, and logs across multiple Linux servers 2024

Ram Dump Tool | *Python, Rust, React, Winpmem, MongoDB* | Memory dumping **forensics** tool for extracting volatile memory (RAM) contents with cross-platform compatibility 2024

OneClickRun | *Shell Script, Hashcat, Google Colab, Aria2* | Multifunctional **automation** tool with Jellyfin, aria2 features and Hashcat functionality for password cracking using Google Colab resources 2023

TECHNICAL SKILLS

DevOps Tools: Docker, Kubernetes, GitHub Actions, Jenkins, Git, Linux Administration, AWS (EC2), ELK Stack

Cybersecurity Tools: Metasploit, BurpSuite, Nmap, John The Ripper, Wireshark, Radare2, Hydra, Aircrack-ng, SQLMap, Nikto, W3af, Nessus, OpenVAS, Volatility, Autopsy, Ghidra, IDA Pro

Languages: Python, Java, C++, JavaScript, HTML, CSS, Bash Script

Testing Tools: Selenium, TestNG, Postman, Rest Assured, JMeter, Appium, JIRA, Trello, Allure

Cloud/Databases: MongoDB, Firebase, MySQL, DigitalOcean

CERTIFICATIONS

Certified Ethical Hacker (CEH) Practical | Score: 200/200 | Real-world security testing expertise 2024

eLearnSecurity Junior Penetration Tester | 48-hour practical exam with 5-lab penetration testing 2024

Jr. Penetration Tester by TryHackMe | Top 2% ranking | Structured penetration testing learning path 2023

EDUCATION

Lovely Professional University

Punjab, India

Bachelor of Technology in Computer Science and Engineering (Cybersecurity)

Aug 2020 – Sep 2024

- CGPA: 8.29/10.0
