

NEERAJ SINGH

DevOps & Security Engineer

✉ Neerajlovecyber@gmail.com | 📞 +91 7988815263 | 🔗 LinkedIn | 🐙 GitHub | 🌐 neerajlovecyber.com

PROFILE

DevOps Engineer & Security Engineer with 3+ years designing, building, and operating scalable, cloud-native security platforms. Strong in **Python**, and **JavaScript**, with **CI/CD** (**GitHub Actions**, **Jenkins**), **Docker**, **Kubernetes**, **AWS (EC2)**, and **ELK** centralized logging. Runs **SOC** workflows and **Wazuh**-based monitoring, detection, and response for production environments.

Also delivers offensive security —**penetration testing**, vulnerability assessment, and **CEH/eJPT**—plus **SDET** automation for web and **API** testing. Focused on aligning development, security, and operations for secure, high-performance distributed systems.

WORK EXPERIENCE

- DevOps Engineer & Security Engineer**, xIoTz Private Limited11/2024 – Present | Bengaluru
- Designed and shipped custom **Wazuh** Active Response modules to **automate** containment and remediation, reducing manual steps in real-time **incident handling** and keeping outcomes consistent across estates.
 - Contributed to a cyber assurance platform on **AWS EC2**, integrating **Wazuh** with **automation pipelines** and centralized workflows for **threat detection** and policy; owned **DevOps**-style provisioning, configuration, deployment, and steady-state operations so security controls shipped with observable health and repeatability.
 - Ran core **SOC** operations—**alert triage**, deep-dive **log analysis**, and structured **incident response**—on **ELK**-centralized telemetry; refined queries and narratives to improve signal-to-noise and hand off durable fixes to engineering.
 - Executed scoped internal **penetration testing** with practical tooling (**Burp Suite**, **Nmap**, and related chain) to surface exploitable **vulnerabilities**, prioritized risk with stakeholders, and aligned remediation with secure development practices.
- SDET & Operations Intern**, Frugal Testing10/2023 – 09/2024 | Hyderabad
- Built web and **API** automation with **Selenium**, **TestNG**, **Postman**, and **Rest Assured** in **Java**, lifting test coverage **40%** and API suite reliability **50%**.
 - Implemented **CI/CD** with **GitHub Actions**, cutting deployment time **30%** via repeatable pipelines and automation.
 - Triaged and tracked defects in **JIRA/Trello** for a **25%** faster resolution cycle; shipped **Allure** reports and **Slack** alerts (custom templates) for another **25%** gain in reporting efficiency.
 - Containerized** test environments with **Docker** and executed suites on **Kubernetes** for scalable, parallel runs.

PROJECTS

- Security Audit360** — Baseline & Audit Console, Centralizes 40+ org signals (DNS, domains, IPs, certs) and ships exportable **security audit reports** for ops and compliance.
- Cyber Assurance Platform** — Unified **SOC & CSPM** Layer, One operational plane for detection, triage, centralized logging, cloud posture, and workload telemetry with automation—not siloed point tools.
- SSB Buddy** — SSB Prep & Mock Interviews, Mobile app with guidance, mock interviews, and study tools for Defence board candidates.
- Hafia** — Maritime Shipping Delivery Assurance, Client program for a **shipping management** web and mobile product with **real-time vessel tracking**; built pipeline-friendly regression and integration coverage on live telemetry and fleet data paths, release gates, and environment checks so tracking, dashboards, and ops workflows stayed reliable under production-like load.

TECHNICAL SKILLS

Programming & Languages Python, Java, C++, JavaScript, TypeScript, HTML, CSS, Bash, SQL, Rust DevOps & IaC Docker, Kubernetes, GitHub Actions, Jenkins, Linux Administration, Terraform, Grafana, Ansible	Engineer & Testing Tools VS Code, Git, Postman, Cursor, JIRA, Trello, Slack, Selenium, TestNG, Rest Assured, Allure Clouds AWS (EC2), GCP, Azure, Digital Ocean	DBMS MongoDB, MySQL, Firebase, PostgreSQL, Redis, ELK Stack (OpenSearch) Cybersecurity Metasploit, Burp Suite, Nmap, Wireshark, SQLMap, Nessus, Volatility, Ghidra, Wazuh
--	--	--

CERTIFICATES

Certified Ethical Hacker (CEH) By EC-Council	Jr. Penetration Tester (eJPT) By eLearnSecurity	Jr. Penetration Tester By TryHackMe
--	---	---

EDUCATION

Bachelor of Technology in Computer Science and Engineering (Cybersecurity)	2020 – 2024 CGPA 8.29/10.0
